We are excited to announce our new development plans for the land at Pennyfeathers, marked in red on the map.

While the principle of developing the site was approved in 2017, we have listened to all the comments raised in the last application. We have revisited and improved our proposals to create a beautiful development better suited to the area.

We value the comments and feedback of residents and stakeholders and invite you to come and talk to us and share your views of the new plans at our public engagement event.

Drop-in Public Engagement Event
